SERIAL NO. 91666167**DATE IN:** 5/21/81**1. TO:** Bill Wright**Location:** CP36E4 **Date:** 5-22-01**Consider For Class:** 428**Comments:** * Call to you want to go ahead

* The layered device or material is capable of changing input energy (e.g. FMM sound etc.) to different wave length.
* means for disturbing the cyclic structure" is seen best in the drawings.
* See Figure 1

Signed: Jky Dure Letton**4. TO:** DAVE**Location:** **Date:****Consider For Class:****Comments:**

- No liquid crystal cell detail claimed in claim 58.
- It seem proper for 428 or 430

Signed: Nam**2. TO:** DAVE**Location:** **Date:****Consider For Class:** 349**Comments:**

claim 58 has enough structure for class 349

Signed:**5. TO:** Bill Wright**Location:** **Date:****Consider For Class:** 428**Comments:**

Do you want me to give to Carmen as a panel case? I'm not sure if class 428 would take this with the "electrodes"

Signed: Jky Dure Letton**3. TO:** Nam T. Nguyen**Location:** CP4-11B6 **Date:** 5-23-01**Consider For Class:** 349 2809**Comments:**

* Please consider whether claim 58 that has a layered structure and electrodes is proper for class 349. Claim 58

Signed: Jky Dure Letton**6. TO:** II**Location:** **Date:****Consider For Class:****Comments:**

Yes
